PETER KAHENYA

Software Engineer

peterkahenyanjoki@gmail.com
+254 790 373 516
Nairobi, KENYA
LinkedIn | peterkahenya.com | GitHub

SKILLS

- **Languages:** Python, JavaScript/TypeScript, C++, Kotlin (Android)
- **Backend:** Django, FastAPI, ExpressJS, REST, GraphQL, gRPC
- **Frontend:** ReactJS, Next.js, TailwindCSS
- **Databases & AI:** PostgreSQL, MongoDB, Neo4J, ChromaDB (Vector DB)
- **Cloud & DevOps:** AWS, Kubernetes, GitHub Actions, LGTM Stack, PubSub
- **Data & Automation:** Airflow, Alteryx, Zapier, n8n
- **AI & Agents:** GPT, Claude, Gemini, VertexAI, Sagemaker, Langgraph

EXPERIENCE

Forward Deployed Engineer
Turing USA
08/2025 - Present
Achievements/Tasks

- ★ Forward deployed to design and implement agentic workflows and transformation.
- ★ Built agentic tools and MCP services to interface with third party LLMs.
- ★ Built reinforcement environments (gyms) for fine-tuning and evaluating agents on tool use and computer use.
- ★ Designed, implemented and deployed services as modular, production-ready APIs
- ★ Designed and iterated on scalable database schemas for each service integration

Lead Backend Engineer(Contract)
VibesMeet LLC
03/2025 - 07/2025
Achievements/Tasks

- ★ Built microservices by breaking down the monolithic system into small modules and deploying on the cloud. This improved the developer experience and response times for users by 35%. Tools used included aws lambda and python.
- ★ Built a recommendation engine to suggest potential contacts and a 'for you' page content suggestion which doubled engagement and user retention. This involved customizing a transformer system on AWS personalize and building a feedback ETL pipeline for continuous improvement and retraining.

Senior Fullstack Engineer
Humentum
11/2023–03/2025
Achievements/Tasks

- ★ Led design and development of a training platform integrated with third-party tools. The platform provides training to over 16K users a month in the not-for-profit sector from over 15 countries.
- ★ Built a data pipeline to ingest, clean, and transform multi-source data for dashboards used by 50+ org heads and 5 funders to give them real-time assessment of program impact and interventions needed. This included the use of Airflow, Alteryx and MSFT Fabric to deliver an end-to-end automation.
- ★ Automated compliance and reporting workflows, cutting execution time by 50%. This involved building a KYC and sanctions checks via tools like Zapier, Make to continuously check compliance with funder and organization standards.

Senior Associate, Tax Technology
PricewaterhouseCoopers(PwC)
03/2021– 11/2023
Achievements/Tasks

- ★ Led in the development of bespoke applications and microservices to support international reporting and compliance such as e-invoicing, real-time reporting dashboards and management services tracking platform.
- ★ Set up RPA (UiPath) and ETL infrastructure (Alteryx, PowerBI) reducing audit effort by 60%.
- ★ Worked with c-suite level leaders in East Africa to understand their challenges and co-create technology solutions.
- ★ Mentored associate staff in developing their skills and competencies.

Software Engineer
Kipya Africa
10/2019-12/2020
Achievements/Tasks

- ★ Built an e-commerce platform enabling real-time video/chat support for remote diagnostics and booking. Reached 1K+ users.
- ★ Also built marketing tools: newsletters, ad efficiency tracking, and event management systems.

EDUCATION

Bachelor of Science, Computer Science
University of Nairobi
09/2015-09/2019

CERTIFICATIONS

- *Agentic Design with Langgraph*
  Langchain (08/2025 - 09/2025)
- *Large Language Models: Foundation Models from the Ground Up & LLM Applications through Production*
  Databricks (05/2023-05/2024)
- *Data Science and Machine Learning*
  Africa Data School (01/2023-07/2023)
